listened to a podcast ~~on~~, RU Sirius interview w/ a guy who tried to ~~make~~
make a love spell on fox news. He began by writing a
love letter to the organization, then for 33 days he would enter a
trance state & by listening to flute music & recordings of the
Dakai Lama & then watchin Fox News for several hours.

Egrigor -

In occultism, an egrigor is a supernatural intelligence called a "thought-form", which is often produced by the power of the "will" or visualization by particularly magickal thought forms in such incidents are produced by grav force. The psychic Ted Serios said that when they are forcibly produced they could reuse photographic film.

Alan Goldstein ~~says~~ ~~about~~ says that
the species Homo sapiens does the
moment the ~~assault~~ cross the
carbon barrier. Not because they won't
live forms will die sooner necessarily, but
because we'll be up against the rest of
chemistry.

anahad - no biological life form

he forebore until forbearance ceased to be a virtue

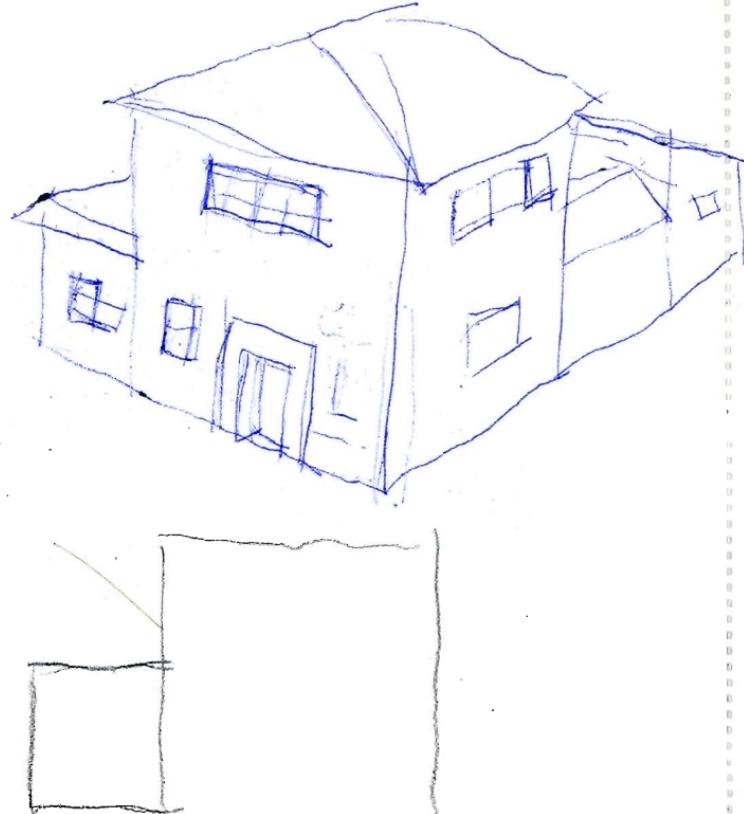

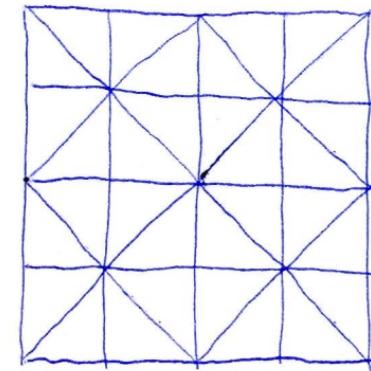

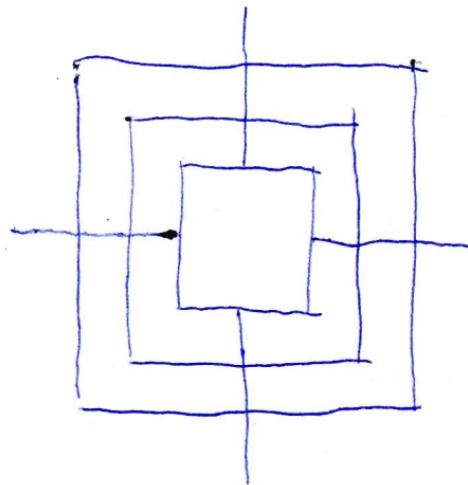

Every living thing is a sort of imperialist, seeking to transform as much as possible of its environment into itself... When we compare the (present) human population of the globe with that of former times, we see that "chemical imperialism" has been... the main end to which human intelligence has been devoted.

give up our sins.

to think that we are in
control is an illusion
holding onto our sins is
refusing to relinquish control

When you come under the covenant you have exhausted your agency in that thing.
(Covenant breaker)

We have nothing & we are not in control.

Praying always

"We are energy + activity" to animals,
they care nothing for personality + status

"We are the only animals that will follow
unstable leaders."

1 august 2006

trees

objects which embody their own history.

are there any objects that don't?
are there different qualities of embodied history?

can objects be decontextualized,
~~or~~ will they always embody history?

to what extent has a piece of wood in a piece of furniture been decontextualized from its prior history?

How much of that history can still be read?
